Sir:

**Response to Restriction Requirement**

In response to the Restriction Requirement set forth in the Office  
Action mailed March 24, 2004, Applicants hereby elect, with traverse, the species  
of Figure 3 for prosecution in the present application. Claims 1-13 and 15 are  
believed to read on the elected species.

The traversal is based on the grounds that the Office Action does  
not provide support for the restriction requirement by, for example, identifying  
the claims that read on the noted species or describing that the inventions are in  
different classifications and are therefore not searchable together.

In view of the foregoing comments, it is believed that the present  
application is in condition for examination, and an early and favorable action on  
the merits is therefore requested.

Respectfully submitted,
